Brainwave Tuner Lite
[IMOBILIFE INC.](#)

Brainwave Tuner - Just put on the earphones and let Brainwave Tuner turn you on!

* Brainwave Tuner Full Version is now available on Android Market! *

Brainwave Tuner is a brain wave stimulation application that generates tones with binaural beats, which can change your brain frequency towards the desired state, be it relaxation or enhanced attention.

10 Preset Sound Patterns are now included in Brainwave Tuner Lite:

- Headache Therapy: Helps alleviating headaches with a mixture of steady low theta (5Hz) and mid-alpha (10Hz) waves.
- Meditation: Concentrating on this tone helps quickly attaining a meditative state of mind.
- Schumann Resonance: Helps meditating with a steady 7.83Hz alpha tone. This is also the resonance of the Earth's magnetic field, making it a very natural meditative frequency.
- Sleep Induction: Gently slows the brain frequency down to a 3Hz delta wave, which usually occurs in a deep sleep thus to gradually induce one's sleepiness.
- Relaxation: Helps to relax with a basic sweep from a regular beta wave (15Hz) down to a low alpha wave (7Hz), in order to save you from certain intense strain.
- Self-hypnosis: Helps getting into a self-hypnotic state. The user should listen to the repeating sound and concentrate on it.
- Edge of Consciousness: Discover the true meaning of life and consciousness with this track taking you to the very edge of the conscious mind.
- Earth Peace Night: This is an Earth Meditation track that helps relax and mediate.
- Attention Increase: Helps focusing by bringing the brain to a high beta frequency. The frequency is lowered briefly once every 15 seconds to keep the brain more receptive.
- Intelligent Increase: This 10Hz alpha tone helps increase the blood flow in the brain, promote dendrite and synapse growth, increase IQ points and cognitive abilities.

White Noise Lite

By TMSOFT

[View More By This Developer](#)

Open iTunes to buy and download apps.

Description

RECOMMENDED BY CNET, PC WORLD MAGAZINE, AND MSNBC! OVER 10 MILLION DOWNLOADS! FIND OUT WHY THE WORLD IS SLEEPING BETTER!

CNET: Five free iPhone apps that can improve your life

"Trouble falling asleep at night? A little white noise might do the trick. Just choose a sound--a thunderstorm, waves crashing on a beach, chirping crickets, etc.--and set your iPhone (or second-gen Touch) on your nightstand. The app features a volume fader and timer so your handset can "drift off" after you do."

PC WORLD: Three iPhone Apps You Can't Live Without

"I've become addicted to falling asleep to white noise. It's soothing, and it blocks out ambient sounds. I'm especially in need of my white noise when on a plane (I've got to block the sounds of the inevitable screeching toddler) or staying in a hotel. The free White Noise Lite does the trick for me."

MSNBC: Parents turn to cell phones as high-tech rattles

"Now when his infant daughter gets fussy in the car or during a walk, he puts his iPhone in her carrier to play the free application called White Noise Lite. "It immediately relaxes her," he said."

White Noise Lite provides ambient sounds of the environment to help you relax or sleep. Do you find yourself waking up in the middle of the night? Are you in a hotel and miss the familiar sound of your fan? Flying on a plane and just want to nap? Includes high quality looping noises such as waves crashing on a beach, crickets chirping at night, and the soothing sound of rain fall.

Relax. Sleep better. Feel better.

FEATURES

- Mix multiple noises together to create new soundscapes
 - Create a timed playlist of sounds and mixes
 - Sleep function turns display into a LED clock and dragging up and down adjusts brightness
 - Sound timers that slowly fade audio out so you don't suddenly awake
 - Multiple alarms that slowly fade in so you wake up feeling refreshed
 - On-screen media and volume controls with support for headphones w/ remote controls and iPod controls on lock and multitask screens
 - Gesture support allows swiping left or right to navigate sound collection
 - Integrated help available by swiping down. To dismiss swipe up.
 - Star your favorite sounds and mixes in the catalog viewable in the favorites category.
 - Settings let you adjust device volume, sound volume, balance, and pitch of sound. Auto sleep enables sleep mode after 2 minutes.
 - Includes beautiful images that match the high quality of each sound

According to a recent study (Gray, 2008) there are about 1.8 mobile phones per person around the world. Since everyone of us can find himself in the need to give some first aid assistance to someone injured, it is simple to merge these two data and say "why don't give these people a first aid application to be installed on their mobile phones."

Nothing particularly new here, but if you give it a further and deeper look, you will find Mobile First Aid to be not the ordinary list of TODO's in case of emergency or just a simple book you can scroll through.

Mobile First Aid is developed to give anyone the tools and knowledge to perform the right thing, no matter what are your skills.

Few use of this application will grow the natural hatred and aversion towards the tobacco, it may leave a positive impression for life time. Smoking cession effort fails because they don't hit the root cause. This automatic revulsion towards tobacco is the answer!

This application uses power of information and facts. Repeated use of this application solidifies your dislike towards tobacco and slowly your tobacco use frequency will reduce. I quit smoking after more than 20 years of addiction by repeatedly browsing my small black book fill with the facts and gory details of tobacco side effects. Here is my black notebook in a form of a phone application.

Daily tweets against tobacco will provide you with new and updated information and reinforce your resolve to keep away from tobacco.

If you are not a smoker then help your friend, son, daughter or uncle with this application.
